

50-2926 Fan Blade Replacement Instructions

Youtube Link: http://youtu.be/aE_Bf7M1c1M

STEP 1

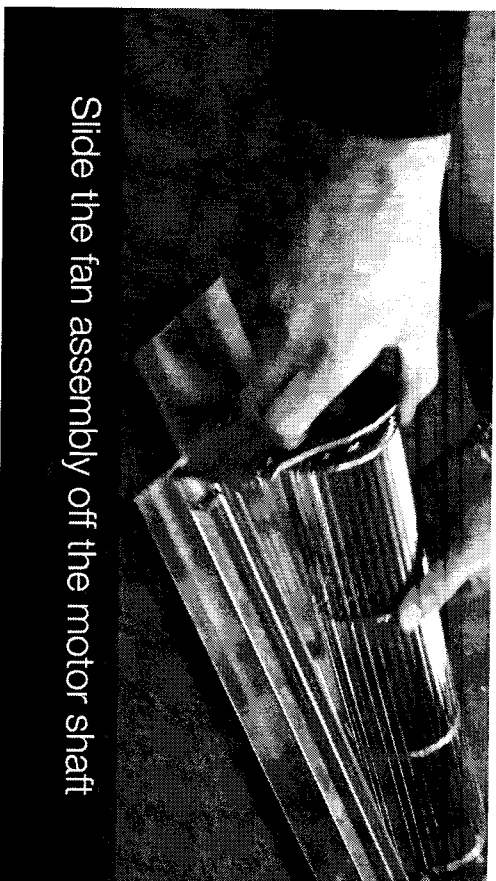

Use a 2.5mm hex key to loosen the set screw
DO NOT REMOVE THE SET SCREW

STEP 2

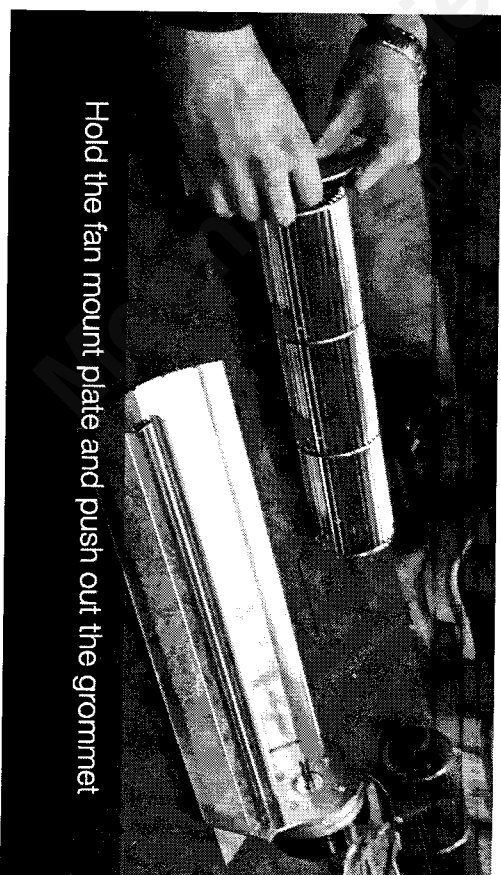

Remove all 5 pan head T-20 screws

STEP 3

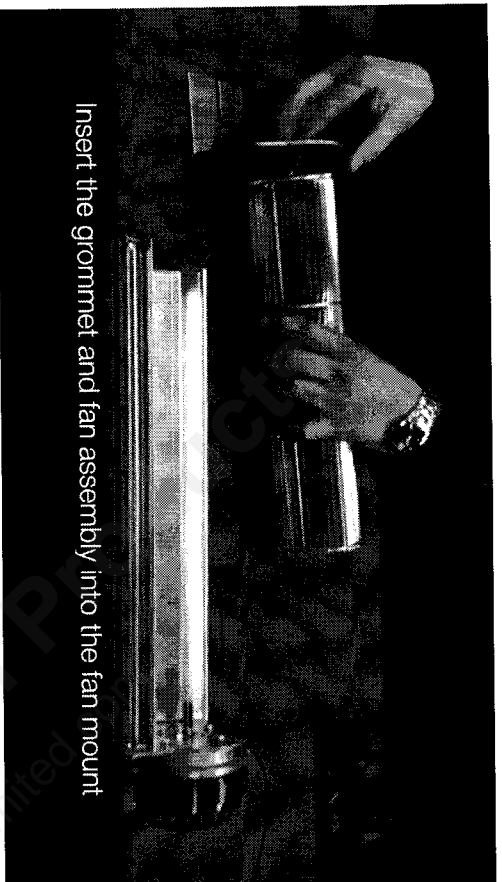

Slide the fan assembly off the motor shaft

STEP 4

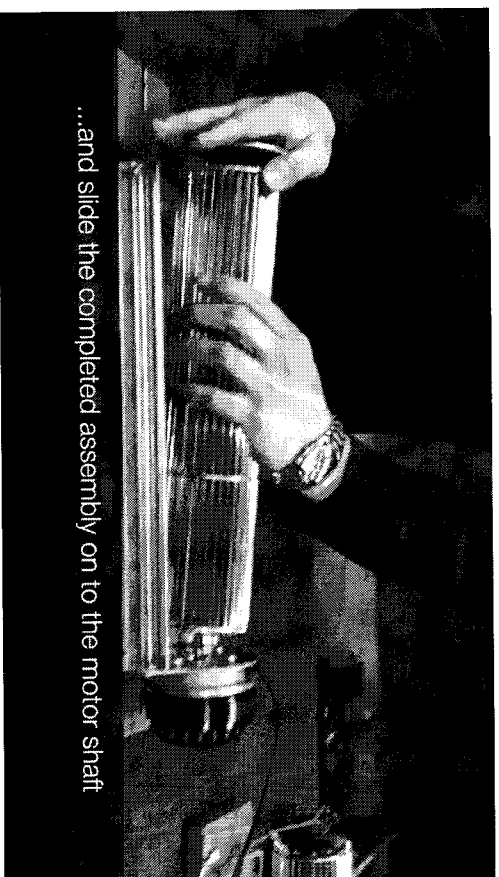

Hold the fan mount plate and push out the grommet

STEP 5

Insert the grommet and fan assembly into the fan mount

STEP 6

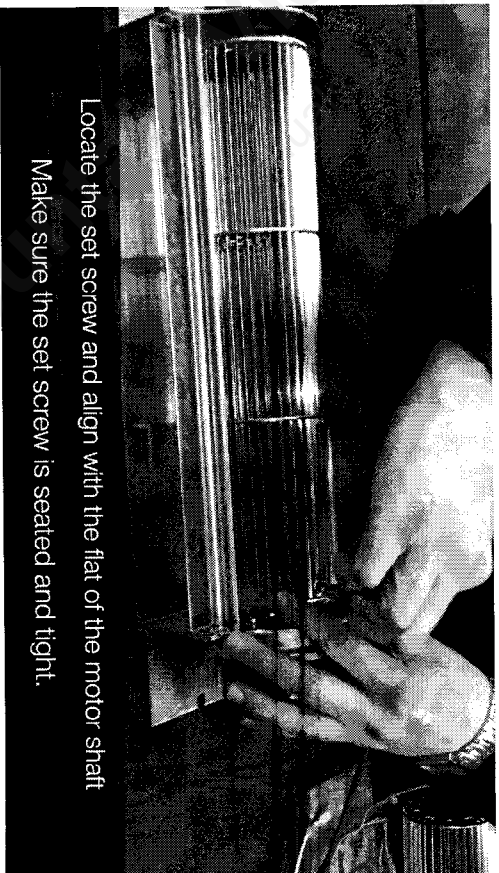

...and slide the completed assembly on to the motor shaft

STEP 7

Re-attach the fan mount using the 5 pan head T-20 screws

STEP 8

Locate the set screw and align with the flat of the motor shaft.
Make sure the set screw is seated and tight.
